COMPANY PROFILE

MINGXING LIGHTING is a China High-Tech company and it is a professional manufacturer of outdoor lights in Ningbo China. We supply flood light and solar light with patent designs and reliable quality. The factory founded in 2007 with over 10,000 square meters. Our team is consisted of over 150 staffs. The annual output exceeds 2 million pieces. Focus in lighting field for 16 years, we well understand the market demand and have superior R&D and innovation ability, and we can design customized products according to partner's requirements.

The MINGXING technical team is committed to continuous design innovation and process improvement. We have advanced multi-functional laboratories with full sets of testing equipment, which can fully simulate the market environment and do extreme destructive tests to ensure the practicality and reliability of the products at R&D stage.

In production stage, MINGXING accords to ISO9001 standard and strictly controls every details. We have standardized constant temperature production workshop and advanced automatic assembly lines, with dustproof, anti-moisture, anti-static, and fully enclosed production environment, to greatly avoid the LED beads are polluted by dust during the production process, and fogging in the lamps due to high temperature. In addition, we have die-cast machines, SMT machines, automatic painting machines, automatic gluing machines, etc. Over 80% of the spare parts are produced and assembled by our factory. Moreover, all finished products will pass IP65 inflatable water immersion, water leakage and water absorption tests.

In the meantime, we vigorously promote humane management, care about the staffs, and implement the concept of energy-saving production to achieve sustainable development.

Insisting on the business philosophy of "quality first, integrity-based, creativity and innovation, and mutually beneficial win-win", we strive for more excellence in product quality and customer service, and pursue the best.

At present, our products have passed CE, RoHs, GS, ERP, REACH certificates or qualifications with good quality and superior cost performance, which can withstand the test of both market and time. Now we have established stable cooperative relationships with more than 100 dealers both abroad and in domestic.

Choose MINGXING, and you choose assurance and comfortability. MINGXING will become your faithful partner!

WHY US? (OUR CORE ADVANTAGES)

KNOW-HOW

The core technology of outdoor lights is outer housing-making, PCB design, system matching, and assembly process. MINGXING LIGHTING has ability to independently design, develop and produce the core parts with patents, and can also design customized products according to partner's requirements.

END-USER ORIENTED

To offer products that end-users would love, MINGXING understands the actual needs of end-users in the market. By innovative thinking, we constantly make improvement on the functionality and comfortability of the products and have acquired over 20 patents.

VISIBLE QUALITY STANDARDS

MINGXING quality excellence is the result of strict intensive testing and inspecting that offers our partners quality assurance.

IN-DEPTH COOPERATION

The partnership between clients and MINGXING can be customized. We would love to tailor our support, such as OEM, ODM, marketing strategy, after-sales service to the needs of our partners.

GOOD MANAGEMENT TEAM

"Reliable & comfortable". It is the understanding of products, cooperation and service throughout the company. MINGXING LIGHTING's products aim at "quality first, price competitive". The advanced internal management system ensures better service and collaboration for the dealers worldwide.

"Cooperation and win-win". MINGXING LIGHTING's years of experience shows that only cooperation and win-win can create a better future. We can develop only when our dealers grow bigger and stronger.

"People-oriented". Internal team is the biggest asset of MINGXING LIGHTING. The development and success of the company is the result of staffs' efforts and commitment.

SERVICE PHILOSOPHY

Integrity, Altruism, Fast & Convenient.

"Integrity, altruism, fast and convenient" is the philosophy we adhere to in dealing with the relationship with our partners. Do everything that we can to create value for partners and realize our dreams. Strict design requirements and quality control makes our products have good quality and superior cost performance, which can withstand the test of both market and time. Excellent service makes us achieve good reputation from our partners, and makes the cooperative relationships firm and strong.

Most important:

We are a fully responsible company!
